Good Morning,

As you are all aware, our fabulous winter weather has caused some inconveniences around the city and entire county. As your new school superintendent, I’ve had the privilege (tongue in cheek) of driving the roads early and make the best decision I can each day to keep our students, parents and staff safe. Wednesday was our first day back after winter break. It was decided about 5:00 a.m. that we could get children to school safely and the phone calls went out. THEN THE MAGIC HAPPENED! Between 5:00 a.m. and about 8:00 a.m. our city crew made sure that all our major roads and intersections were graveled/sanded and ready. I was amazed at the amount of work done by the time the decisions was made and the time families needed to begin entering school parking lots.

THANK YOU! THANK YOU!

Karen Douglass
