Introduction

The Stevenson City Council is requested to review and decide on a draft Development Agreement that would grant conditional extension of Chinidere Mountain Estates’ 10-year approval timeline. If approved as drafted, the Development Agreement would allow an additional 5-year period to complete infrastructure installation and satisfy all other conditions of preliminary plat approval.

Recommended Action

Planning staff recommends Council adoption of Resolution 2016-288, adopting a development agreement and extending preliminary plat approval until September 21st, 2021.

Overview

The Chinidere Mountain Estates Subdivision was originally applied for in March, 2005 and proposed 89 residential lots to be constructed over 4 phases: 22 lots, 32 lots, 24 lots, and 11 lots. This proposal gave no indication for the intended timing of each phase in relation to other phases.

The City originally granted approval in February, 2006 for 83 residential lots to be constructed over 4 phases: 30 lots, 22 lots, 23 lots, and 8 lots.

After appeal and Superior Court remand, the City modified the preliminary plat approval and in September, 2006 reauthorized the 4-phase, 83 lot subdivision.

Engineering plans were approved for construction of Phase 1 in July, 2008. Stormwater controls in these plans reduced the number of lots in Phase 1 to 27, and maintained the total number in the remaining phases.

Construction began shortly after, but completion of Phase 1 stalled as the Great Recession—a downturn in the US economy, partially created by the unsustainable financial practices of the home mortgage market—changed the viability of land developments.

Construction on Phase 1 resumed in March, 2016 with completion expected this summer. The subdividers have requested an additional 5 year extension of the preliminary plat completion timeline.
Vesting

The proposal to extend the completion timeline involves the continued vesting of the Chinidere project in the land use laws that existed in 2005. The following changes to the City land use would not be applicable to this project: [Note: this collection of regulatory changes does not consider any changes to the Stevenson Engineering Standards that may have occurred during this time.]

- Critical Areas Code:
  - Ordinance 1022: A wholesale change in requirements from the previous critical areas ordinance, adds new administrative and regulatory standards and a more thorough application process. Regarding the Chinidere proposal, the following changes should be noted:
    - Critical Aquifer Recharge Areas: No effect.
    - Frequently-Flooded Areas: No effect.
    - Geologically Hazardous Areas: Little effect. Analyses and conditions included with Chinidere’s 2005 submittals are similar to requirements of the new code.
    - Habitat Areas: Little effect. Riparian habitat buffers have increased. Instead of 50’ and 50’ buffers from the 2 streams on site, the new code would require base buffers of 50’ and 75’. Actions required by current conditions would allow reductions of these base buffers to less than 50’.
  - Wetlands: No effect.

- Subdivisions:
  - Ordinance 1004: Adds/amends administrative provisions. No effect.
  - Ordinance 2016-1096: Amends completion timelines and adds process to extend timelines based on approved development agreements. Effective through this request.

- Zoning Code:
  - Ordinance 1004: Adds/amends administrative provisions. No effect.
  - Ordinance 1019: Amends SR District regulations. No effect.
  - Ordinance 1030: Adds/amends administrative provisions. No effect.
  - Ordinance 1038: Adds/amends wireless telecommunications use allowances. Little effect.
  - Ordinance 2011-1051: Adds/amends signage standards and electric vehicle charging use allowances. Little effect.
  - Ordinance 2012-1061: Amends Zoning Map. No effect.
  - Ordinance 2013-1073: Amends provisions for accessory dwelling units. Little effect.

Extension Criteria
The City Council must find that granting this extension is in the City’s best interests. Staff’s recommendation for approval is based on the below analysis of the City’s best interests.

**Advantages**

**Return on Investment** Returns on the following investments can be realized by granting the extension:

1) The community expended a great deal of social and political capital to ensure the current approval contains adequate conditions.
2) A great deal of City staff time has been invested in the 11 years since this proposal was presented.
3) The subdividers have also invested substantial resources into the current proposal.

**Economic Recovery** As land and housing markets rebound from the recession, granting this extension can help the city realize economic gains:

1) The City will support the readiness of “shovel ready” properties after some of the worst economic conditions since the Great Depression.
2) The City will support potential development of expected residential growth that will support year-round customers for local businesses.

**Infrastructure Systems** City-owned water, sewer, and road networks will benefit from the granting of this extension.

1) New residential customers will provide usage fees to support water and sewer systems.
2) Completion of the planned through streets will provide automotive and pedestrian connectivity between isolated neighborhoods and high use areas.

**Disadvantages**

**Development Regulations** Updates to development standards from 2005-2021 will not apply to the land division.

**Alternatives**

1) Object to this request as inconsistent with the City’s best interests.
2) Consent to this request and adopt Resolution 2016-288.
3) Take some other course of action as a Council.

**Community Input**

A legal notice providing public awareness of this request was published in the *Skamania County Pioneer* on the 20th of July, 2016. Emails were sent to the “Chinidere Approval Process” email group on the 18th of July, 2016.

RESOLUTION 2016-288--“EXHIBIT A”
DEVELOPMENT AGREEMENT

Effective Date: ________________, 2016

PARTIES:

Aspen Development, LLC is the owner of APN 03-75-36-3-0-1200, legally described as Lot 1 of the Feliz Short Plat as recorded with the Skamania County Auditor as AFN 2008170088. Chinidere, LLC is the owner of APN 03-75-36-3-0-0500, legally described as Lot 2 of the Feliz Short Plat as recorded with the Skamania County Auditor as AFN 2008170088. Collectively these owners are referred to as the “Developer”.

The City of Stevenson is a Washington municipal corporation (“City”), and is responsible for land use planning and permitting pursuant to the Growth Management Act, RCW 35A.63 and RCW 58.17.

Developer and City are collectively referred to as the Parties.

AUTHORITIES

The parties are authorized to enter this Development Agreement by RCW 36.70B.170(1).

Whereas, pursuant to RCW 36.70B.170, a development agreement may set forth the development standards and other provisions that will apply to, govern and vest the development, use and mitigation of the development of real property for the duration specified in the agreement, which statute provides:

(1) A local government may enter into a Development Agreement with a person having ownership or control of real property within its jurisdiction. A city may enter into a development agreement for real property outside its boundaries as part of a proposed annexation or a service agreement. A development agreement must set forth the development standards and other provisions that will apply to and govern and vest the development, use, and mitigation of the development of the real property for the duration specified in the agreement. A development agreement will be consistent with applicable development regulations adopted by a local government planning under chapter 36.70A RCW;

Whereas, the legislative findings supporting the enactment of this section provide:
RESOLUTION 2016-288--“EXHIBIT A”

The legislature finds that the lack of certainty in the approval of development projects can result in a waste of public and private resources, escalate housing costs for consumers and discourage the commitment to comprehensive planning which would make maximum efficient use of resources at the least economic cost to the public. Assurance to a development project applicant that upon government approval the project may proceed in accordance with existing policies and regulations, and subject to conditions of approval, all as set forth in a development agreement, will strengthen the public planning process, encourage private participation and comprehensive planning, and reduce the economic costs of development. Further, the lack of public facilities and services is a serious impediment to development of new housing and commercial uses.

Project applicants and local governments may include provisions and agreements whereby applicants are reimbursed over time for financing public facilities. It is the intent of the legislature by RCW 36.70B.170 through 36.70B.210 to allow local governments and owners and developers of real property to enter into development agreements;

RCW 58.17.140 provides that a final plat must generally be submitted for approval within five (5) years after preliminary plat approval. However, if the preliminary plat was approved before January 1, 2015, the applicant has seven (7) years to submit a final plat; and if a preliminary plat was approved before January 1, 2008 and is not subject to the Shoreline Management Act, the applicant has ten (10) years to file for final plat approval. Cities and counties may adopt procedures by ordinance for extensions of these time periods. Further, RCW 58.17.140 provides that nothing prevents a City from adopting by ordinance procedures which would allow extensions of time that may or may not contain additional or altered conditions and requirements.

Stevenson Municipal Code Section 16.26.090 (Section 4 of Ordinance 2016-1096) authorizes the City Council to extend final plat approval through a development agreement mutually agreed by an applicant and the City pursuant to RCW 36.70B.170, upon findings by the City that such extension is in the City’s best interests.

RECIDTES:

The City initially issued “Chinidere Mountain Estates” preliminary plat approval subject to conditions on February 24, 2006 and modified said approval and conditions after Superior Court remand as part of the Final Order dated September 21, 2006, as thereafter
RESOLUTION 2016-288--“EXHIBIT A”
partially amended on September 10, 2008 and April 7, 2009, and thereafter varied on July
11, 2016; attached respectively as Exhibits “A”, “B”, “C”, and “D”.

The Project was to be constructed in Phases (Phases 1 through 4), with Phase 1 final map
approval anticipated to be complete by the third week of August 2016, and with final map
approval for Phases 2 through 4 to be completed at a future time either within the time
period defined in RCW 58.17.140, or as otherwise extended to a date mutually agreed by
the City and Developer.

Phase 1 consists of 27 lots, Phases 2 and 3 collectively consist of 45 lots, and Phase 4
consists of 8 total lots (total 80 lots).

Preliminary plat approval will expire September 21, 2016.

The Parties acknowledge that the Great Recession which began in 2007 had significant
impacts on the development and sale of real property, housing and related development
projects. The subject Project suffered from the effects of the Great Recession, so that
development did not proceed in accordance with the timeframes initially contemplated.

The Parties acknowledge that due to the factors associated with the Great Recession, the
Developer (Aspen Development LLC with respect to Phases 1 – 3) and Chinidere LLC
(Owner of Phase 4) require an extension to obtain final plat approval (for Phases 2 – 4,
and possibly Phase 1), and requested an extension from the City prior to the September
21, 2016 expiration date.

The Parties agree that it is in the best interest of the City and the Developer to reasonably
extend the Preliminary plat approval for a **period of five (5) years** from the current
expiration date, so that the new Preliminary plat expiration date for any Phase that has not
received final plat approval before September 21, 2016 shall be September 21, 2021.

The City will benefit from the extension, as it will enable the plat to be timely and
appropriately developed to meet current residential housing needs and generate
associated revenue for the City. Other cities in Washington have similarly found that
factors associated with the Great Recession support extensions such as the extension
authorized by this Agreement. See, for example, Haagen Development Agreement
Extension – City of Vancouver, Washington.

Further, the extension is supported by the fact that the Developer acquired this project in
the midst of the development process, and has been required to take action to address and
resolve issues not caused by the Developer. See, for example, recent court action required
to resolve the Lutheran Church Road issue.

On July 11, 2016 the City Planning Commission varied the requirement that 80% of each
phase must be sold or developed prior to commencing development of the next phase.
This action will help the property owners develop the properties under more natural
market conditions.
NOW, THEREFORE, the Parties agree as follows:

Note: Phases 1 through 3 are separate and distinct from Phase 4 and no action or inaction with respect to Phase 4 shall relate in any manner to, or affect, Phases 1 through 3, and vice versa.

City's Reserved Authority. Notwithstanding anything in this Agreement to the contrary, the City will have the authority to impose new or different regulations to the extent required by a serious threat to public health and safety as required by RCW 36.70B; provided, however that traffic congestion generally is not a serious threat to public health and safety but the impact of congestion at any particular location may degrade to a level that constitutes a safety hazard, and that such action will only be taken by legislative act of the Stevenson City Council after appropriate public process. The City further retains all police power regulation and all authority not subject to vested rights limitations under RCW 58.17.033.

Authorization. The persons executing this Agreement on behalf of Developer and the City are authorized to do so and, upon execution by such parties, this Development Agreement will be a valid and binding obligation of such parties in accordance with its terms. The Parties have each obtained any and all consents required to enter into this Agreement and to consummate or cause to be consummated the transactions contemplated hereby.

Run with the Land. This Agreement will run with the land and be binding on the Parties' successors and assigns, and will be recorded with the Skamania County Auditor.

Venue. This Agreement will be construed in accordance with the laws of the State of Washington, and venue is in the Skamania County Superior Court.

Performance. Failure by any Party at any time to require performance by the other Parties of any of the provisions hereof will not affect the Parties’ rights hereunder to enforce the same, nor will any waiver by a Party of the breach hereof be held to be a waiver of any succeeding breach or a waiver of this clause.

Severability. If any portion of this Agreement will be invalid or unenforceable to any extent, the validity of the remaining provisions will not be affected thereby. If a material provision of this Agreement is held invalid or unenforceable such that a Party does not receive the benefit of its bargain, then the other Parties will renegotiate in good faith terms and provisions that will effectuate the spirit and intent of the Parties’ agreement herein.

Inconsistencies. If any provisions of the Stevenson Municipal Code and land use regulations are deemed inconsistent with this Agreement, the court shall first attempt to harmonize the
provisions and if unable to do so, the provisions of this Agreement will prevail, excepting the City’s reserved authority as explicitly defined herein.

A claimed waiver must be in writing and signed by the Party granting a waiver. A waiver of one provision of this Agreement will be a waiver of only that provision.
