Stevenson, Washington 98648

# **Notice of Construction**

The attached exhibit shows improvements that will be made to Kanaka Creek Road and Gropper Road. These improvements will consist of new asphalt on Kanaka Creek Road from Loop Road to City Limits, and on Gropper Road from Kanaka Creek Road to Chesser Street. The intersection of Kanaka and Gropper will be realigned for better sight distance, and the sidewalk will be continued along the east side of Kanaka Creek Road from where it currently ends, up to the High School. A new sidewalk will be added from the High School to Chesser Street. There will also be some stormwater improvements in the vicinity of the High School.

This project is scheduled to start on June 23rd, 2017, and will be completed by August 30<sup>th</sup>, 2017. These dates were chosen so that the construction would not interfere with school traffic. During this project you will notice single lane closures with traffic control flaggers, as well as complete road closures while they realign the intersection of Kanaka Creek Road and Gropper Road, and again during final paving operations. During the road closures there will be a signed detour route in place. The construction crews will also notify property owners if access to their driveways will be affected.

Please contact Eric Hansen, Public Works Director at 509-427-5970 with any questions.

This project was made possible by several successful grant applications, which include: Federal STP dollars, WA State Small City Sidewalk Program, WA State Small City Match Program, and local agency funds.
