April 28<sup>th</sup>, 2020

Hello,

Highlights from today's meeting are below. The next meeting will take place Tuesday unless otherwise needed.

- County Commissioners are discussing the option to open up boat launches as a result of the Governor's announcement yesterday to open up outdoor recreation starting May 5th.
- The Sheriff's Office, Local, State and Federal agencies are coordinating to project a consistent message regarding the Governor's reopening of outdoor recreation areas and how it will apply to the Gorge. More meetings will take place on Friday and Monday.
- FEMA sent out information about funding and guidance on tracking COVID-19 response expenses.
- All PPE requests have been fulfilled. More tyvek suits are on the way.
- Community Health is working with other Gorge counties on engaging with the tribal community based on a recent COVID-19 death.
- The State will release funds to cities and counties with a population less than 500k. Counties will receive \$250k minimum and cities will receive \$25k minimum. The guidelines for funding are attached and I expect more information to come out later in the week about steps to secure funding.
