Stevenson, Washington 98648

September 8th, 2020

Hello,

The numbers have not changed and there remains 1 active case in quarantine. The county remains with low activity and schools are starting to have some in-school programs, as allowed in the guidelines.

Skamania County is requesting agencies release CARES funding they will not use so it can be reallocated by the November 30th deadline.

The City of Stevenson will open City Hall as soon as personal barriers are installed. They are also reaching out to see how agencies can spend additional CARES Act funding received from the state. This along with Halloween activities will be discussed at the October 15th council meeting. Kirby Richards did not have anything to add in relation to Halloween other than what was already published by the Department of Health and CDC.

Due to the low activity of cases, there will be no more regularly scheduled ICS meetings. They will take place as needed.

Please contact me if you have any questions or concerns or to pass along information.

Thank you for all the work done to help keep our community healthy!

Sincerely,

Leana Kinley, EMPA, CMC

City Administrator
